

It's all in the detail

CONSTRUCTION CF

Designed specially for the building and construction industry. Features an increased approach angle and higher ground clearance.

COMFORTABLE & SPACIOUS CAB

The ideal workspace in every environment. Supreme levels of comfort, enhanced by the effective heating and ventilation system, complete with optional rest heat. Easy to clean and keep clean.

MAXIMUM PAYLOAD

The DAF CF offers a payload improvement of over 250kg. Optional rear axle disc brakes and aluminium air tanks, together with the compact exhaust system, maximise earning potential.

EASY ACCESS

Robust and sturdy steps lead to wide opening doors allowing easy access. An optional additional flexible step is designed to take the rough with the smooth.

CHASSIS

Flexible packaging enables solutions for all applications; tipper, tipper-grab, concrete, mixer, front-end or underfloor tip gear.

MAXIMUM DURABILITY AND RELIABILITY

Components are positioned out of harm's way, with revised wiring and electrical systems designed to withstand the harshest environments for maximum uptime.

DAF Services

DAF MultiSupport

An extensive range of repair and maintenance packages ensures the highest quality service and support for your vehicles and predictable costs for maximum peace of mind.

PACCAR Financial

PACCAR Financial, DAF's in-house finance company, is exclusively dedicated to the transport industry and offers customized financial services for new trucks, used trucks and trailers.

PACCAR Parts

Besides original DAF and PACCAR engine parts, PACCAR Parts supplies over 60,000 universal TRP Truck & Trailer parts for all makes of trucks and trailers, throughout Europe.

DAFaid

24/7 rapid and professional roadside assistance throughout the UK and linked to DAF International Truck Service (ITS) in Europe in ten different languages. Call 0800 919395 to contact DAFaid.

DAF Driver Academy

DAF training can help drivers to achieve the lowest possible fuel consumption and improve their driving performance in terms of safety and transport efficiency.

DAF Dealer Network

A DAF dealer is never far away. Wherever you are in Europe, you can visit one of around 1000 DAF sales and service points. The DAF dealer will give you tailored advice and provide you with excellent service.

DAF

THE DAF CF PURE EXCELLENCE

The DAF CF has been developed to be the best truck for the construction and building industry. With engines and drivelines that deliver superior performance both on and off road, class-leading fuel economy, electrical architecture designed for improved reliability, durability and, above all, a payload increase of 250kg to deliver industry leading earning potential. The CF and CF Construction models are available in a range of variants including: FAT (6 x 4) and FAD (8 x 4) to provide the ideal solution for tipper or mixer applications in any environment, from busy city streets to the most arduous of quarries.

Construction CF

The unbreakable lexan headlights and fog lights are protected by a three-piece steel bumper. The heavy duty radiator protection plate doubles as a hinged step for easy windscreen cleaning.

The ideal choice

The CF suits urban operation with attractive styling and low mounted driving position for enhanced direct vision, whilst the Construction CF provides maximum ground clearance, a high approach angle and robust features to cope with off road operation.

Designed to meet your requirements

Performance in all areas

- MX-11 engine. High performance; maximum payload.
- More power and torque across the range.
- 12 speed automated TraXon gearbox with specially developed on/off road software. Enhanced control with faster shifting.
- 16 speed manual gearbox option.
- Standard MX Engine Brake on FAD (8x4) models.

Maximum carrying capacity

- Lowest chassis weight in its class; no compromise on strength.
- Chassis packaging to suit all applications.
- Optional high capacity 2x8.5t front axles and hub-reduction rear axles, for specialist and drawbar capability.

Configured to suit your needs

- LHS exhaust with vertical tailpipe or RHS with diffuser.
- Left or right hand side mounted fuel tank.
- Chassis packaging to suit tipper-grab, front end and underfloor tipgear.
- Visualise layout options on the Online Truck Configurator.

Off road mode

- The TraXon gearbox is available with on/off road software that provides almost uninterrupted power to the wheels, when the off road mode is selected by a switch on the dashboard.
- Ultra-fast gear changes and a special shift strategy keep the vehicle moving in the most challenging conditions.

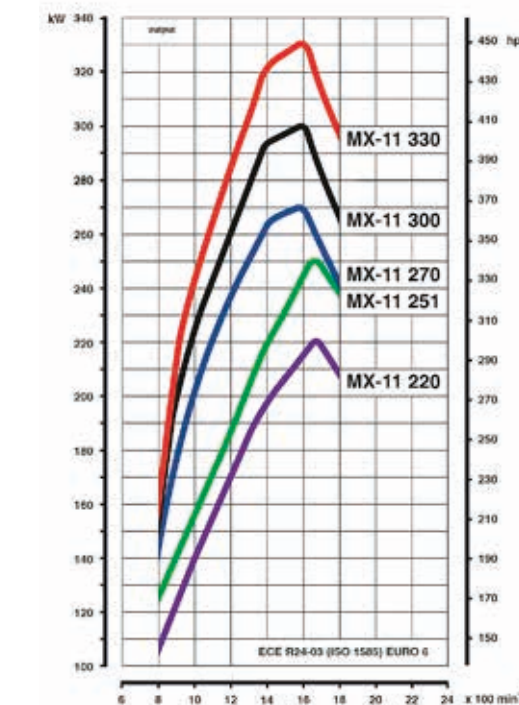

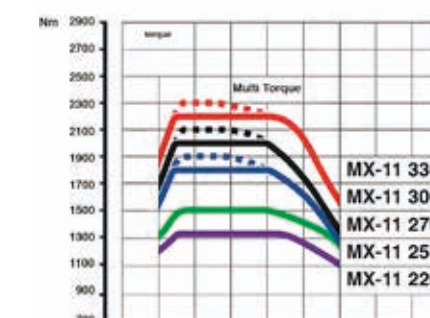

Dedicated 8x4 mixer models

- 8m³ concrete capacity.
- Standard MX engine PTO.
- Application specific chassis design.

Driveline excellence for performance on and off road

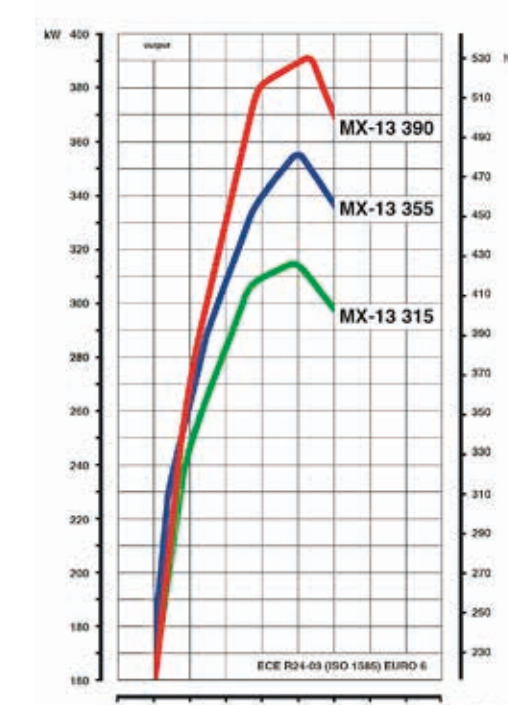

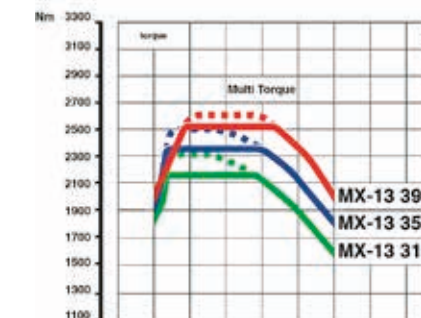

The DAF CF offers a range of power ratings and multi-torque PACCAR MX-11 and MX-13 engines. These deliver even more torque at lower revs and additional torque is available in top gear for great driveability. The MX-11 is available in ratings up to 330kW (450hp) and 2300 Nm in combination with an automated 12 speed TraXon gearbox, or optional 16 speed manual, and single reduction double-drive bogie for maximum payload. For heavy duty and drawbar applications the MX-13 is available in ratings up to 390kW (530hp) and 2600 Nm in combination with automated 12 or 16 speed TraXon gearbox, or optional 16 speed manual and new HR1670T hub reduction double drive bogie.

10.8 L PACCAR MX-11

Multi torque in the highest gear for direct drive gearboxes and in the two highest gears for overdrive gearboxes
Distribution versions

12.9 L PACCAR MX-13

Multi torque in the highest gear for direct drive gearboxes and in the two highest gears for overdrive gearboxes
